Dashboard Functionalities (Core)

31. **Grammar Check:** This module is not functioning as desired. It cannot check the grammatical Mistakes.

Screenshot:

32. Content Writer (Content Types): The content writes module has many options or content types for writing a content, but only blog content has implemented here for writing a blog. Other has no functionality implemented.

Screen-Record: (Click the Link Below)

https://drive.google.com/file/d/1haLp07s_JpfJ_-3Wmb11g4KeJqZLDkUr/view?usp=share_link

33. Content Writer (Client Side Exception): A client side exception happens while generating a blog content, some keyword has exceptions here like "About".

Screen-Record: (Click the Link Below)

https://drive.google.com/file/d/1DCGsoUhCrQkZHvZnOTpdyl0FwmclcfV/view?usp=share_link

34. Content Writer (Generated Content): While the content being generated, the model cannot generate useful contents relatable with blog Title, blog About. As well as it only generates short text content, while it has 242-character limit to generate the content. This is a major Drawback. Also generated contents section has some options where user can "Copy", "Save", "Add for More Like This" & "Remove" buttons, but only Copy button is working, Others are not functioning.
